ABOUT US

We are a dedicated research site for more than 20 years, and a part of Thermo Fisher's global Clinical Site Network. We conduct clinical trials, investigating new medications and breakthrough treatments in a variety of general therapeutic areas.

OUR RESEARCH TEAM

Principal Investigator, Dr. Melissa Choi

Our support team includes a Clinical Site Manager, Clinical Research Coordinators, a Research Assistant, Patient Outreach Coordinator, Data Compliance Coordinator, and Front Desk Coordinator who are ready to provide a friendly and relaxed environment where you have the chance to help shape the future of healthcare for yourself and others. Our dedicated and experienced medical professionals conduct clinical studies with compassion and respect.

Dr. Melissa Choi joined Synexus in 2021, after more than 10 years in clinical practice. She obtained her medical degree from Brown University in Providence, RI, followed by a family medicine residency at the University of Minnesota, Methodist Hospital in St. Louis Park, MN. Dr. Choi is a board-certified family and obesity medicine physician who has been the Principal Investigator for numerous clinical trials in multiple therapeutic areas. She is committed to participant safety and looks forward to welcoming you in the near future.
